

ABOVE: TRC2D, TRC1S
AT LEFT: TRC1S

- Make fast, clean cuts on soft steel threaded rod and eliminate the need for grinding or filing.
- Head is made of forged alloy steel while cutting dies are heat-treated.
- Power-coated, painted handle features a comfort handle grip on the upper handle and a drilled hole on the lower handle for permanent mounting to a benchtop or other sturdy surface.
- TRC2D features two cutting spots and ships with dies for 1/2" or 3/8".
- TRC1S ships with 3/8" dies and can be outfitted with other dies. TRC1S holds only one die set at a time.
- Dies can be flipped once, at the same time, for a 2nd cutting face. Each face gives about 300 cuts before die replacement is needed.

Threaded Rod Cutters
