■ Indestructible TCIs ■

Dear all,

As you are all fully aware, Polysoude TCIs are recognised on the market to be the best asset for closed chamber welding heads, due to their exceptional mechanical characteristics: spring effect leading to a perfect fitting to the tube and incredible lifetime thanks to the amazing properties of Titanium.

In fact, you all know that Polysoude TCIs are indestructible*.

Therefore Polysoude is now granting a lifetime warranty on all our TCIs bought since the 1st January 2016.

Take the chance to increase your sales with this argument!
We also talk about this asset in our new advertisement (see above).

Polysoude Team – always ready for you

Best regards

Communications Department

21st January 2016

* Indestructible when used in normal conditions
