1. QUALITY

Electric Eel is clearly the quality leader in the manufacturing of sewer and drain cleaning equipment designed for the rental industry. One area of exceptional quality leadership includes:

CABLE

All Electric Eel inner core cables are made from **certified galvanized aircraft wire inner core**. A time consuming heat treating process to relieve stress is carried out on all Electric Eel cables.

2. SERVICE

Electric Eel ships direct from the factory in Ohio for the quickest turnaround of orders. A toll-free number to the factory gives access to instant support, sales, and service.

3. EXPERIENCE

Electric Eel has been servicing the rental market for over five decades. Our company has **developed an excellent understanding for the needs of the rental customer**.

Electric Eel products have been built and designed with these needs in mind. Features such as open cages, ground fault circuit interrupters, and safety clutches have been incorporated to help insure the best possible results for the rental owner.

4. PRODUCT INFORMATION

The understanding of the safe operations and maintenance of Electric Eel drain cleaning equipment is critical to the success of the rental outlet. Electric Eel can provide complete operational and maintenance material to help insure proper usage and care of equipment. A video, designed specifically for the rental market, is provided at no cost and is an excellent tool for both the rental operator as well as the customer. Various other instructional and promotional material is also provided.

5. LOCAL SUPPORT

Nationwide sales representatives are available to assist rental stores with any needs they may have concerning their sewer and drain cleaning equipment.

Cleans 3" – 10" dia. lines up to 200 ft.

The original dual cable sectional drain cleaner from Electric Eel has been generating profits for nearly 5 decades in the rental industry.

The Model C spins the 8 or 10 ft. cables at twice the RPM of that of a continuous cable machine for maximum cleaning power. The Model C is ideal for tougher blockages such as tree roots and for longer runs in main sewer lines.

KEY FEATURES / BENEFITS

Safety – No handling of rotating cables.

Lower Maintenance – The sectional cables can be quickly inspected and cleaned.

Reduced Replacement Costs – Sectional cables can be replaced at a much lower cost than a 100 ft. cable.

No Down Time – You'll never miss a rental with a Model C due to a broken cable. If a section is ever damaged, simply set that cable aside and continue the job.

Ease of Transport – The Model C drive unit weighs only 72 lbs. The handle folds down for easy transport and storage.

More Power – The heavy duty Baldor motor is available in 1/2 H.P. (Standard), 3/4 H.P., and 1 H.P.

Safety Slip Clutch – Keeps tools and cable breakage to a minimum.

MODEL C STANDARD RENTAL KIT (CK-REN-1/2-8TRS)

- 1/2 H.P. Drive Unit
- (13) 8 Ft. T.R.S. Cables (104 Ft.)
- SC-13 Feeding Tool
- SC-18 Spanner Wrench
- Set of (5) Cleaning Tools

[Complete Model Line on Page 3](#)

NOTE: Optional cable containers available for transporting cables.

Cleans 3" – 6" dia. lines up to 100 ft.

The compact Model R drain and sewer cleaning machine runs either 5/8" or 3/4" dia. "Tri-Max" inner core cable in lengths up to 100 ft. This unit is ideal in situations with limited working space. The Model R utilizes the same quick connect "snap lock" tool fittings as the Model C.

KEY FEATURES / BENEFITS

- Heavy duty 1/3 H.P. Baldor capacitor start motor.
- Rugged 1-1/4" steel frame.
- Removable handle for easy transporting and work in tight spaces.
- Snap lock tool connectors hold tools firmly in place – no screws to come loose or rust.
- Large 10" wheels for easy maneuvering.
- Built-in GFCI w/20 ft. power cord.
- Reinforced cable cage totally open for quick inspection and cleaning, quickly removes.
- Runs the industries toughest TRI-MAX cable in 5/8" x 3/4" diameter.

Cleans 1 1/4" – 3" dia. lines up to 100 ft.

The newest edition to Electric Eel's complete line of drain cleaning tools is the Z5 drain cleaner. The new Z5 fills the gap for those jobs that require a longer run in smaller drain lines.

KEY FEATURES / BENEFITS

- Unit built on heavy duty steel frame with folding handle for easy storage and transport.
- Totally open cable cage for easy inspection and cleaning of cable.
- Wheel break stabilizes unit while in operation.
- Power cord is wrapped around conveniently placed brackets for safe, problem free transport.
- Easy-to-use air operated foot switch

allows the use of both hands when working with cable.

- Built-in drum shaft slip clutch minimizes cable and tool breakage.
- Unique inner drum design eliminates cable tangling in cage.
- Larger 10" wheels for better maneuverability.
- Rear bar for motor protection.
- Rugged 1/3 H.P. Baldor motor.

MODEL Z5 STANDARD KIT (Z5K-1/2IC75)

- Z5 1/3 H.P. machine
- 1/2" x 75' Galvanized aircraft wire inner core cable
- Set of (5) cleaning tools
- Tool bag
- Leather gloves
- "T" wrench

Cleans 1 1/4" – 3" dia. lines up to 50 ft.

A professional quality yet affordable drain cleaner for indoor lines up to 50 ft. The Model E is a common and widely rented machine popular with homeowners. The Model E utilizes both 3/8" and 1/2" diameter cables.

KEY FEATURES / BENEFITS

- Rugged 1/3 H.P. Baldor motor.
- Cord wraps for easier transport.
- Rear bar to shield motor and allow for two position operation.
- Inner drum to eliminate cable buckling in cage.
 - Built-in drum shaft slip clutch.
 - Heavy duty steel tubular frame.
 - GFCI with 20 ft. power cord.
 - Cast aluminum bracket with bearing supported guide tube.

MODEL E STANDARD KIT (EK-R-1/2IC50)

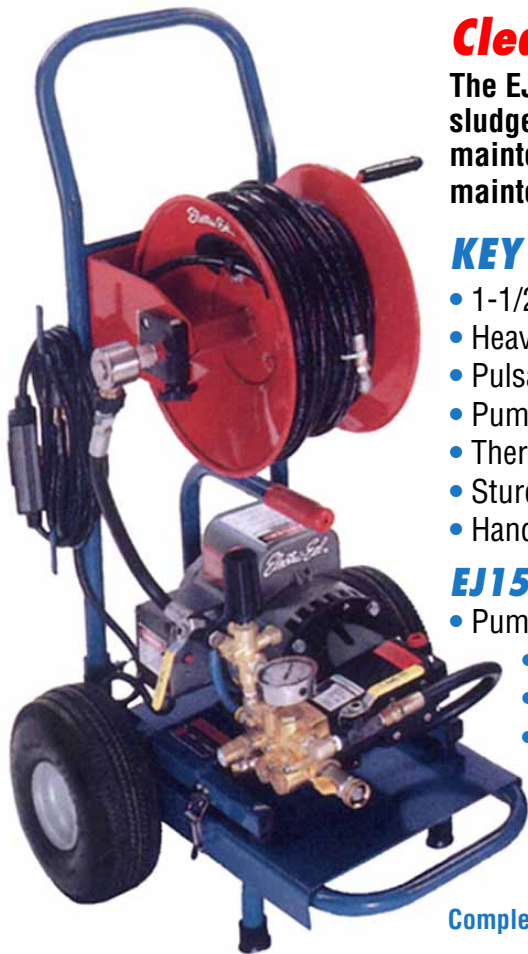

- Model E machine
- 1/2" x 50' Galvanized aircraft wire inner core cable
- Set of (3) cleaning tools
- Leather gloves
- Tool bag
- "T" wrench

Cleans 1" – 4" dia. lines up to 100 ft.

The EJ1500 electric jetter is ideal for cleaning grease, sand, soap and sludge from small drain lines. The EJ1500 is the perfect preventative maintenance tool for restaurants, hospitals, schools and professional maintenance applications.

KEY FEATURES / BENEFITS

- 1-1/2 H.P. Baldor motor.
- Heavy duty duplex pump produces 1500 PSI and 1.7 GPM.
- Pulsation valve for maneuvering around difficult bends.
- Pump/motor assembly quickly removes from base for added portability.
- Thermal relief valve.
- Sturdy 10" pneumatic tires.
- Handle / Reel removes from base for easier transport.

EJ1500 STANDARD KIT (EJ1500D)

- Pump / Motor assembly on cart with (2) pneumatic tires
 - 1/4" x 100' Jetter hose
 - 1/8" x 50' Jetter hose
 - Set of (3) jet nozzles for 1/4" hose
 - Set of (2) jet nozzles for 1/8" trap hose
 - Rubber gloves
 - Bag to hold nozzles

Cleans 1 1/4" – 2 1/2" dia. lines up to 35 ft.

The industry's highest quality hand held drill powered drain cleaner is ideal for smaller, inside lines such as sinks, tubs, and showers. The Model S runs 5/16" and 3/8" dia. cables up to 35 ft.

KEY FEATURES / BENEFITS

- Stainless steel cable drum won't rust, break or crack.
- Cast aluminum hand guard.
- Jacobs easy to tighten chuck.
- Variable speed, 1/2" reversing drill with double ball bearing gear head for longer life.
- Double insulated drill for shock protection.
- Cables are constructed of certified music wire – all inner core cables have genuine aircraft wire inner core for longer lasting operation.

MODEL S STANDARD KIT (SK-R-3/8EIC25)

- Model S machine
- 3/8" x 25' Expanded end inner core cable.

NOTE: Optional steel carry case available

HANDE DRAIN CLEANER

Opens clogged sinks, lavatories, bathtubs, and shower stall drains.

- 1/4" or 5/16" Music wire cable for maximum flexibility and durability.
- 1/4" Cable negotiates most bathtub crossbars.
- Heavy duty steel drum holds up to 35' cable.
- Convenient thumb screw locks cable securely.

HANDE STANDARD KIT (HE-1/4E25)

- Hande drain cleaner with 1/4" x 25' cable

HANDE CLOSET AUGER (CA-3A)

Removes obstructions in any type of toilet.

- 3' Music wire cable for greater flexibility.
- Heavy duty zinc plated construction.
- Protective tubing helps prevent marring of toilet bowl.

Tool Rental Special (T.R.S.) Cables

These cables have a larger diameter wire in the outer cable which is coiled to a closer pitch than the standard dual cables. The self-feeding action is slower than the standard cable and they are more flexible, making them ideal for tool rental use. Available in 8 Ft. or 10 Ft. sections.

Part Numbers: 8TRS (8 Ft. Regular TRS Cable), 10TRS (10 Ft. Regular TRS Cable)

NOTE: Above also available in "Heavy Duty" (5/8" inner cable).

Now with patent pending redesigned snap-lock cable coupling allows cables to connect easier and quicker than ever.

Flat Steel Sewer Tapes

- 1/2FST50 (1/2" x 1/16" x 50')
- 1/2FST100 (1/2" x 1/16" x 100')
- 3/4FST50 (3/4" x 1/8" x 50')
- 3/4FST100 (3/4" x 1/8" x 100')

Kinetic Water Ram

Uses a slug of compressed air which suddenly, swiftly and safely strikes the column of water in a blocked pipe.
