

Cordless Power Water Pump

Pump Stick™

Rugged. Versatile. Essential.

Durable REED Pump Stick™ with cordless power provides a portable, jobsite friendly way to remove standing water, up to 15 gallons per minute.

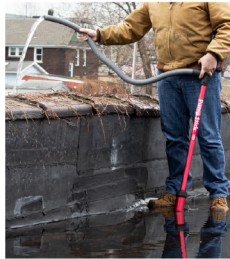

Power with operator's own battery by replacing the Battery Adapter Plate.

Long, slim design allows pumping deep from small cavities as the pump is 38 inches from bottom tip to hose outlet. And, Pump Stick lifts water up to 12 feet above the base. Comfort grip handle at the top brings the pump to 4 feet for operational ease.

Reaches extra deep with the optional 24 inch comfort grip handle to bring total pump length to 66.5 inches, tip to tip. Add extra hoses and hose couplings to complete the set-up.

Useful everywhere, the Pump Stick is a must-have for contractors and maintenance departments.

Numerous applications due to the versatile construction of the pump.

Compatible with different battery brands

Sealed, waterproof switch for safety

Secure, magnetic hose connection

Standard 2' hose (.6 m)

Aluminum body for durability

| CPAPBOSCH | 98139 | Battery Adapter Plate, | Fits BOSCH® |
| 4AHBAT | 98185 | 18V 4.0Ah Battery | Fits BOSCH® |
| 2AHBAT | 98186 | 18V 2.0Ah Battery | Fits BOSCH® |

- Provides extra battery options for REED Pump Stick™.
- Swap the plate to fit common batteries.

Hoses

| | | |
|------------------|-------|-----------------------------------|
| CPHOSE4FT | 98144 | 4FT Hose with Magnetic Connection |
| CPHOSE7FT | 98145 | 7FT Hose with Magnetic Connection |
| CP15COUP | 98147 | Hose Coupling |

- Abrasion-resistant, industrial grade hose is crush resistant for reliable water removal.
- Smooth interior ensures efficient water flow.
- Plastic, lightweight hose resists corrosion and remains flexible at low temperatures.
- Hose design includes magnetic hose connector.
- Requires Hose Coupling #98147 to connect hoses for additional length.

CP15COUP

Screens, Strainers & Filters

- Install screens or filters inside end cap to keep secure during use.

| | | | |
|---------------------|-------|--|---|
| CP15MEDSCRN | 98166 | Medium Screen, 3/pk. | Filters out anything larger than .034" from entering the pump. This is about the size of coffee grounds. |
| CP15FINESCRN | 98167 | Fine Screen, 3/pk. | Filters out anything larger than .021" from entering the pump. This is about the size of sugar granules. |
| CP15FILTER | 98168 | Felt Filter, 100 Micron, 2/pk. | Filters out anything larger than 100 microns (approximately .004") from entering the pump. This is about the size of flour. Use with screens #98166 or #98167 to hold position. |
| CP15SCRFLTR | 98190 | Screen/Filter Assortment contains fine screen (1) medium screen (1), felt filter (1) | Keep this assortment on hand to adapt to different water removal situations. |
| CPMSTR | 98188 | Marine Strainer, Stainless Steel, 1/pk. | Filters out anything larger than bigger than .250" from entering the pump. This is about the size of pea gravel. This strainer is recommended only for clean water transfer such as pools and spas. |

Other Accessories

| | | | |
|--------------------|-------|--|--|
| CP15CASE | 98193 | Standard Case, Red | Heavy-duty case with protective foam insert. |
| CP24HDLGRIP | 98184 | 24" Handle with Grip | Add extra reach for the operator by using this extended handle. |
| R5GBUCKET | 01240 | 5-Gallon Bucket | Sturdy bucket is a useful jobsite staple. |
| CP15RM | 08142 | Motor Assembly with motor, motor mount with screws, and impeller | If needed, replace the motor assembly to get the Pump Stick back in working condition. |
