

Used in many applications to stand pipe away from wood framing.
For use with copper or polypipe tubing.

Attach to stud when running tubing through stud. This helps to reduce noise and isolate from stud.

Use on top of joist or rafter and under joist or rafter.

Use in pipe chase or on side of stud.

- Helps reduce noise transmission.
- 2 Holes may be used with nails or screws.
- Made of tough, durable polyethylene.
- Eliminates pipe rattle and electrolysis.
